Men's Riptide Jacket

REDEFINE RECREATION

Even the most laid-back adventures risk facing unpredictable elements. The newly updated Riptide is a fully featured splash jacket that gives recreational paddlers advanced waterproof-breathable protection. A kayak overskirt and neoprene wrist gaskets keep water out, and the articulated hood and half-zip neck make adapting to conditions easy. Jet-boiled coffee on a rocky beach just tastes better, and in the Riptide, you'll never wish you had stayed on the couch.

Women's Riptide Jacket

EDITO

It never fails to amaze us how quickly paddlesports transitions from a hobby to a defining aspect of our identity. There are transitional stages where paddling is a sport or a passion, but for many of us, it will eventually change who we become and how we see the world.

As we delve deeper into learning, this passion of ours can quickly rule our lives: dictating what we do when (when the wind is up, the waves are in, or the rivers are running, we go), who we connect with most frequently, and where we spend our free time and income.

In the past few years, our industry has seen incredible growth. There has been an influx of numbers and paddlesport participants, yes. There has also been growth within our industry as we took the last few years to reflect on our strengths and weaknesses and consider anew what we want for our future and who we count as part of our community.

By advocating for better access to the outdoors and continuing to develop adaptive boards, boats, and paddles, we welcome more with disabilities to the water. We have ongoing work to continue to develop education and access on this front, but our industry will be stronger for it.

In extending our perception of where paddlesports can happen, we're looking at urban centers, extending paddlesports to new communities, including ethnic minorities and indigenous peoples. In our efforts to become more inclusive, we have welcomed new people and better celebrated all those already on the water.

We discovered new ways to enjoy our favorite spots through the growing rise of foiling and met new people through the increasing crossover of the paddlesport communities with wind and surf cultures. Meanwhile, the rising popularity of products like packrafts and fishing kayaks leads us to new waters.

With global environmental crises such as climate change continuing to impact our daily lives, we are coming to terms with the importance of the waste we generate and how easy it is to take finite resources for granted. As our awareness of our impact grows, we become better consumers, demanding products and packaging that can or has been re-

cycled. We want products that think responsibly about our environment. We become better consumers by learning to differentiate between what we want and need. Globally, many have already tightened budgets and tried to buy less, prioritizing the essentials in the face of inflated living costs.

Here's the thing about paddlesports, though. It is essential. Essential to our mental health, our overall well-being, and our ability to be the best version of ourselves. No matter how we use our paddles, our chosen disciplines continually push us outside our comfort zone. They showcase us at our best but never fail to humble or remind us where we can grow.

This year at the Paddle Sports Show, we celebrated our industry and all we have accomplished together. We welcomed new companies and saw innovations in materials, product performance, design, and safety, many of which are highlighted here in the pages of our annual Paddler's Guide. We connected with old friends and forged new partnerships. We reminisced over old times and made plans for new adventures. We attended conferences that made us think harder about our role as individuals and the influence we can have when we work together. We took another step forward as many pledged to work towards creating a circular economy. We acknowledged the challenges we face next and strategized how to tackle them. We head into the next season with plans to build on all we have learned over the past three years, knowing that the next time we see each other, the cycle of learning and sharing and growing will begin again.

For us, every paddling season starts with our annual Paddler's Guide. A collection of new products and classic favorites, displayed free of charge, as ever. As you flip through these pages or scroll online, we hope what you see gets you excited for the season ahead. We hope it gives direction for where and how best to spend your time, energy, and resources to improve yourself and your paddlesport community. We hope it makes you think. For old hats, we hope it makes you remember why we fell in love with paddlesports in the first place. For new learners, we hope it helps welcome you to this new sport, hobby, passion, or way of life.

INTERVIEW: GERO PRIEBE

The Hobie name has long been synonymous with water sports, bringing to mind bright California beaches and sun-kissed surfing or sailing enthusiasts. With the advent of the MirageDrive, a pedal propulsion system, Hobie burst into the paddlesports market in the late '90s and soon became a major player and influence. We caught up with Gero Priebe, Hobie Kayak Europe Sales and Marketing Manager, to learn more about this iconic brand and its goals for the future.

©Hobie kayaks

PGM: Paddlers Guide Mag: Gero, the name Hobie is iconic, nearly synonymous with watersports. Hobie is a surfing brand, a sailing brand, a kayaking brand. What is the driving force behind it all?

Gero Priebe: I am glad you reference Hobie as a surfing brand. Our founder, Hobie Alter, modeled everything the surf lifestyle and watersport industry stands for today—having a great time in, on, and around the water. Hobie's roots lie in surfing and waterman culture; this helped strengthen our sailing brand, and is now doing the same for kayaking. Everyone at Hobie believes in our authentic, grassroots culture. We do what we love, and we love what we do. From surfboards and world-class catamarans to revolutionary pedal kayaks and stand-up paddleboards, Hobie is driven by a passion for delivering the most advanced, enjoyable, and accessible watersport products available.

PGM: What role do paddlesports play in Hobie's income and strategy?

GP: Paddlesports represent over 90% of Hobie's business these days. Our MirageDrive pedal system redefined kayaking and made Hobie the leader in high-end pedal kayaks, shifting our identity from a surf and sailing company to a major kayak manufacturer. The booming paddle sports sector and the fast-growing market for

**"ONLY A BRICK AND MORTAR
RETAIL STORE CAN CONVINCE
THIS CUSTOMER TO MAKE A
BETTER CHOICE."**

light, car top-able boats will weigh majorly in Hobie's strategy and identity moving forward. We're as driven as ever to bring something new to the paddle sports market, which has always been our goal.

PGM: Is Hobie Kayak Europe a subsidiary or an importer?

GP: Hobie Kayak Europe has always been an independent distributor/importer of Hobie's kayak range in Europe. Last year in November, Hobie Kayak Europe was sold to Hobie Cat Company. Since then, we have been a full subsidiary and cover the entire Hobie kayak product range, minus the sailboats. This has been an important step for Hobie in Europe. Combining the whole product range – kayak, paddleboarding, surf, fishing – under one roof bolsters Hobie's strategy to be the leading supplier of watersport equipment and the number one lifestyle brand in Europe while providing a clear and consistent identity for the Hobie brand in Europe and beyond.

PGM: What has been your experience during the whirlwind our industry has seen in the past few years? What do you anticipate for the future?

GP: The trend and rise of interest in solo outdoor activities, such as paddle sports,

fishing, camping, etc., started before the first Covid restrictions were introduced. Luckily, our industry took advantage of the crisis, which gave – and this wasn't anticipated initially —the development of an outdoor lifestyle and solo outdoor sports the final nudge. The industry has witnessed a rise in demand for our products and lifestyle. We all want to get out kayaking, fishing, and sailing and make great memories. This won't change. Yes, the surge of consumer interest shows signs of cooling down, and next year might be difficult for our industry, given the energy crisis and geopolitical situation. However, demand is still higher than it was before the pandemic. That will not disappear. I am, therefore, very optimistic about the prospects for our industry.

PGM: What are Hobie's market shares in paddlesports on the world and European levels?

GP: Without diving too deep here, Hobie has the world's number one-selling fishing kayak, which is still the Hobie Mirage Outback. With the Outback and our MirageDrive, we have dominated the kayak fishing industry for 20 years, a growing, fresh new sector within paddlesports.

PGM: Hobie has found success in the high-end side of the market and in welcoming newcomers. What's the secret recipe? Added value products, comfortable margins, great user experience?

GP: There are many reasons for success, and I agree with all the ingredients you mention. However, our passion and customer experience are by far the most important. For any product that Hobie creates, the people who create it want it for themselves. The engineers working on new product designs and updates make them for themselves and continue developing products by using them. That is true across every Hobie product category, but it has an especially big role in kayak fishing. Take the MirageDrive, Hobie's hands-free pedal drive. It was first introduced in 1997 and has undergone several rounds of refining to meet the needs of Hobie customers better.

PGM: Tell us more about the Mirage iEclipse, which you unveiled this year at the Paddle Sports Show

GP: The original hardboard Eclipse was the world's first and favorite stand-up pedalboard and a prime example of Hobie's ability to innovate new ways to enjoy the water. The Eclipse was a big hit with those who enjoy exercising outside and rentals looking to offer guests a unique experience. The new iEclipse, our inflatable version, offers remarkable rigidity and the same performance as the Eclipse in an ultra-lightweight and portable package that can fit in the trunk of a small car. Of course, the new hardboard version weighs only 20 kg (44 lb) and is also easy to transport.

PGM: How do you manage copycat products coming from Asian manufacturers? Is there anything to be done besides innovating anew

GP: Innovation will keep us ahead of the copycats. We are aware of their existence, but fortunately, things are not to the point where we view them as competition in Europe. I have never talked to a customer who said they bought a copy and were happy with it. It is always, "I wish I bought the real deal." This customer may still purchase a Hobie and experience a pedal system as it should be. I am concerned about those who have negative experiences with a non-performing pedal system and decided against kayaking as a result. We have to meet with dealers, talk to po-

"THE BOOMING PADDLE SPORTS SECTOR AND THE FAST GROWING MARKET FOR LIGHT, CAR TOP-ABLE BOATS IS CLEARLY THE MAJOR PLAYERS FOR HOBIE'S STRATEGY MOVING FORWARD."

tential new customers and get them into our boats, or at least give them the option to try. E-Commerce only does not help here. Only a brick-and-mortar retail store can convince customers to make a better choice. .

PGM: Kayak fishing is gaining popularity in Europe, and Hobie has played a big part in this. What significant differences do you see between the US and the European markets?

GP: Kayak fishing models and trends in Europe are the same as those in the US but run a few years behind. Where there was a higher interest in smaller kayaks a few years ago in Europe, we are now seeing a growing demand for bigger kayaks, such as our flagship, the Hobie Mirage Pro Angler 14 – 360. I am positive that we will reach a similar level here in Europe sometime in the future.

PGM: You have taken a very active role in the development of Kayak Fishing in Europe through the sponsorship of events and the creation of a global tournament series.

GP: Tournament fishing has become a very serious part of the sport and is absolutely helping to grow the business. Over the years, we have established a highly reputed tournament system spanning the globe that became the blueprint for events

in Europe and other parts of the world. Most rounds end up in the Hobie Fishing Worlds, held first in Australia in 2011, with nine two-man teams representing the US, Singapore, Thailand, South Korea, and Australia. In 2012, the Worlds moved to Texas, and twice as many contenders took part, including a European team (which included me). In 2022, the Hobie Fishing Worlds 9 returned to Amal, Sweden, with 42 anglers representing 18 countries. All the anglers qualified via local events across

the globe. One of the biggest qualifying rounds in Europe is our company-sponsored (along with our partners in fishing) Hobie Fishing European Championships. Since 2014, we have hosted events in different European countries: France, the Netherlands, Italy, Sweden, and even Serbia.

PWM: How does the tournament work? Is it entirely run by Hobie?

GP: Kayak anglers from all over Europe compete in the European Kayak Fishing Tournament, a Catch-Photograph-Release format, to be crowned European Champion. The angler with the largest total length wins. Scoring has become easy over the years. Instead of digital cameras and paper, anglers now use a tournament scoring app that provides a live leaderboard, letting anyone interested follow the event and tournament scoring live. It takes a lot of effort, passion, and a well-connected global team to organize events of this magnitude. Our dealers and local partners put a lot of hard work and effort into events during the season to help put kayak tournament fishing on the map.

PGM: What strategy can we expect Hobie to take in 2023/24? Will you continue to lead the charge, bringing new products and ensuring you are ready when demand increases?

GP: We need to promote our sport to a wider public as a sustainable way of spending time outdoors and living a healthy lifestyle. It's a cool sport, and we all do well to focus on the actual experience of paddling, fishing, pedaling, and kayaking. Getting more people to have a great time in on and around the water with Hobie. That's the main goal for 2023/24!

PADDLER GUIDE.com

The one-stop shop website for paddlesports gear addicts

WHAT'S AROUND THE CORNER?

A LOOK AT WHAT FULLY STOCKED SHELVES AND RISING PRODUCTION COSTS MIGHT MEAN FOR PADDLESPORTS.

Despite the turbulence of the past two years, paddlesports is poised to continue a positive trajectory. For the savvy shopper, there might be deals on the horizon.

The past three years have seen continued growth in paddlesports and solidified our position as an industry capable of overcoming challenge after challenge. The uncertainties of Covid were met with ongoing global turbulence. Zero Covid regulations continued in China even as the rest of the world returned to pre-pandemic norms. Russia invaded Ukraine, contributing to rising prices and energy and labor shortages, driving production costs up and straining finances. The United Kingdom cycled through prime ministers and left the European Union while American politics became increasingly divisive. When the industry saw its biggest increase in popularity in nearly two decades, retailers around the globe faced the surge in demand with empty shelves. We enter 2023 with fully stocked shelves, yet demand for paddlesport products is decreasing from pandemic highs, and production costs and inflation remain high. Nevertheless, a hesitant optimism for the future continues to buoy the industry.

Notably, for the paddlesport industry, constraints on supply appear to be easing, even if they are not yet back to the pre-pandemic normal, writes JP Morgan. "For example, Shanghai-to-Los Angeles ocean freight rates are down 80% from the beginning of the year and 83% from the peak in the second quarter of 2021, but still 25% above the 2010-19 average." Shipping rates are predicted to normalize by 2024 and will continue to drop throughout the next decade. (<https://www.port-technology.org/>)

Inflation skyrocketed in 2022, reaching its highest rate in decades and raising the cost of living essentials, alongside luxury and leisure items, in nearly every country worldwide. As the year came to a close, inflation rates began to stabilize. Predictions call for inflation rates to continue declining globally throughout 2023 but remain painfully high overall. Consumers feel the pressure as they face rising rent, food, and energy costs. With many rethinking their spending habits, where does this leave paddlesports?

In the short term, do not be surprised to see sales in the paddlesport industry that, while not record highs, will not be record lows, either. "Covid boomers," newcomers who discovered paddlesports during lockdowns, have increased user numbers, and many are about ready for an equipment upgrade. Borders are open, but travel remains costly, and low-cost activities close to home maintain appeal.

Though energy and raw materials will remain expensive for some time, keeping production costs high, brands have used the last two years to revamp and regroup, working towards products that are more sustainable and more efficient and environmentally-friendly production practices. Many have hinted at projects in the works, and we can expect to see industry-wide releases of new or updated products in the next few years.

"IN THE SHORT TERM, DO NOT BE SURPRISED TO SEE SALES IN THE PADDLESPORT INDUSTRY THAT, WHILE NOT RECORD HIGHS, WILL NOT BE RECORD LOWS, EITHER."

China lifting Zero Covid restrictions may bring the biggest significant changes for 2023, alleviating the strains and pressures on the supply chains and labor forces. As conditions in China normalize, it may re-open the market to brands reliant on out-of-house production and open new markets altogether in the long run.

In China, the middle class is on the rise, with 163 million currently representing nearly 14% of the country's population. Stringent lockdowns have left people frustrated and seeking relief from rules, testing, and the city. With a public sector already pledging to increase the infrastructure and resources needed for outdoor activities and a growing youth and social media culture, we can anticipate a boom of interest in outdoor sports as Covid normalizes.

While the market won't maintain its pandemic growth rate in Europe and North America, predictions call for it to remain above pre-pandemic norms. It might not be on the forefront of consumer minds, but the next year or two will continue to be an excellent time to be involved in paddlesports. With dropping demand, overstocked shelves, and more new products on the way, don't be surprised to see a sale or two in the near future—and if we're lucky, prices that will, at the very least, hold steady.

While we remain optimistic, if the past three years have taught us anything, it's that nothing is guaranteed. The best way to support our industry remains what it has always been. For consumers, it is buying smart, but buying, nonetheless. For manufacturers, it means producing smart, bringing products to market that people need that show genuine improvements from year to year. There are still difficult times ahead, and people likely won't buy what they don't need. It is up to us to keep paddlesports appealing and feeling essential to people's lives, to remind and sell not just products but the escape getting out on the water offers and the version of ourselves paddlesports allows us to be.

RTMKAYAKS.com

ROTOMOD SAS - Zi. Jean Malèze - 47240 Bon Encontre - France

CLOSING THE DIVERSITY GAP

For years now, it has been widely agreed that prices need to increase for the industry (and our dealers!) to survive. Those prices are now up, but are they the answer to the initial problem?

The past decade has seen a growing desire to make paddlesports more inclusive and accessible to different communities, especially minority populations. Concentrated efforts have seen increased diversity in the imagery used to portray paddlesports. Bringing that diversity to the water requires actions that support our changing perceptions of what the “typical” paddler looks like and what qualifies as the outdoors. We must all continually ask, “why isn’t my paddling community as diverse as it could be?”

The belief that those interested in the outdoors, and by extension, recreational paddlesports, are largely middle-class and white is a self-fulfilling prophecy. By changing the imagery used to portray paddlesports, the industry is working to normalize Black, Indigenous, and People of Color (BIPOC) participants and combat existing stereotypes. Even as the desire to welcome BIPOC communities to the water change, significant hurdles to participation and a sense of feeling welcome remain, including prohibitive financial costs, fear for personal safety, or a lack of access to gear or paddlesport education.

Helping minority populations feel more welcome in paddlesports requires ongoing dialogue, as no two communities are the same. Partnerships with existing organizations, foundations, and businesses working to close the diversity gap can amplify their efforts and impact. NRS has seen success with this strategy through its LEAD program, started in 2021, which supports existing initiatives with resources from gear to financial grants and education while helping increase their reach and platform on a global scale. The creation of internships and jobs for minorities in retail, education, or design can also help diversify paddlesports from the inside out.

In Europe and the US, facilitating programs that bring paddlesports to underrepresented communities, rather than waiting for them to discover us, remains vital if we genuinely want paddlesports to become more representative of society. The International Canoe Federation already runs paddlesport education and talent identification programs, specifically in Olympic disciplines, to countries and regions where infrastructure does not exist in efforts to drive this change.

It is a widespread belief that creating a connection with nature contributes to efforts to protect and preserve our wild places. Still, not all have easy access to alpine lakes, the open ocean, or remote river canyons. Embracing initiatives and products that get people on the water in highly populated areas, celebrating urban waterways, and supporting businesses and facilities that rent gear all help make paddlesports more approachable for a wider range of users and incomes. This helps open new markets and welcomes previously excluded populations by sharing the cost burden and the need to travel.

If we expand our definition of paddlesport participation, we might be surprised to discover who we already find on the water. “Across the board, a lot of BIPOC folks paddle, just not in the paddle sports/recreation community,” reminds Paul Robert Wolf Wilson, Klamath Tribal Member and Chief Storyteller for the non-profit Rios to Rivers, which works to inspire river protection worldwide through work with indigenous youth. “My people, we paddle canoes.”

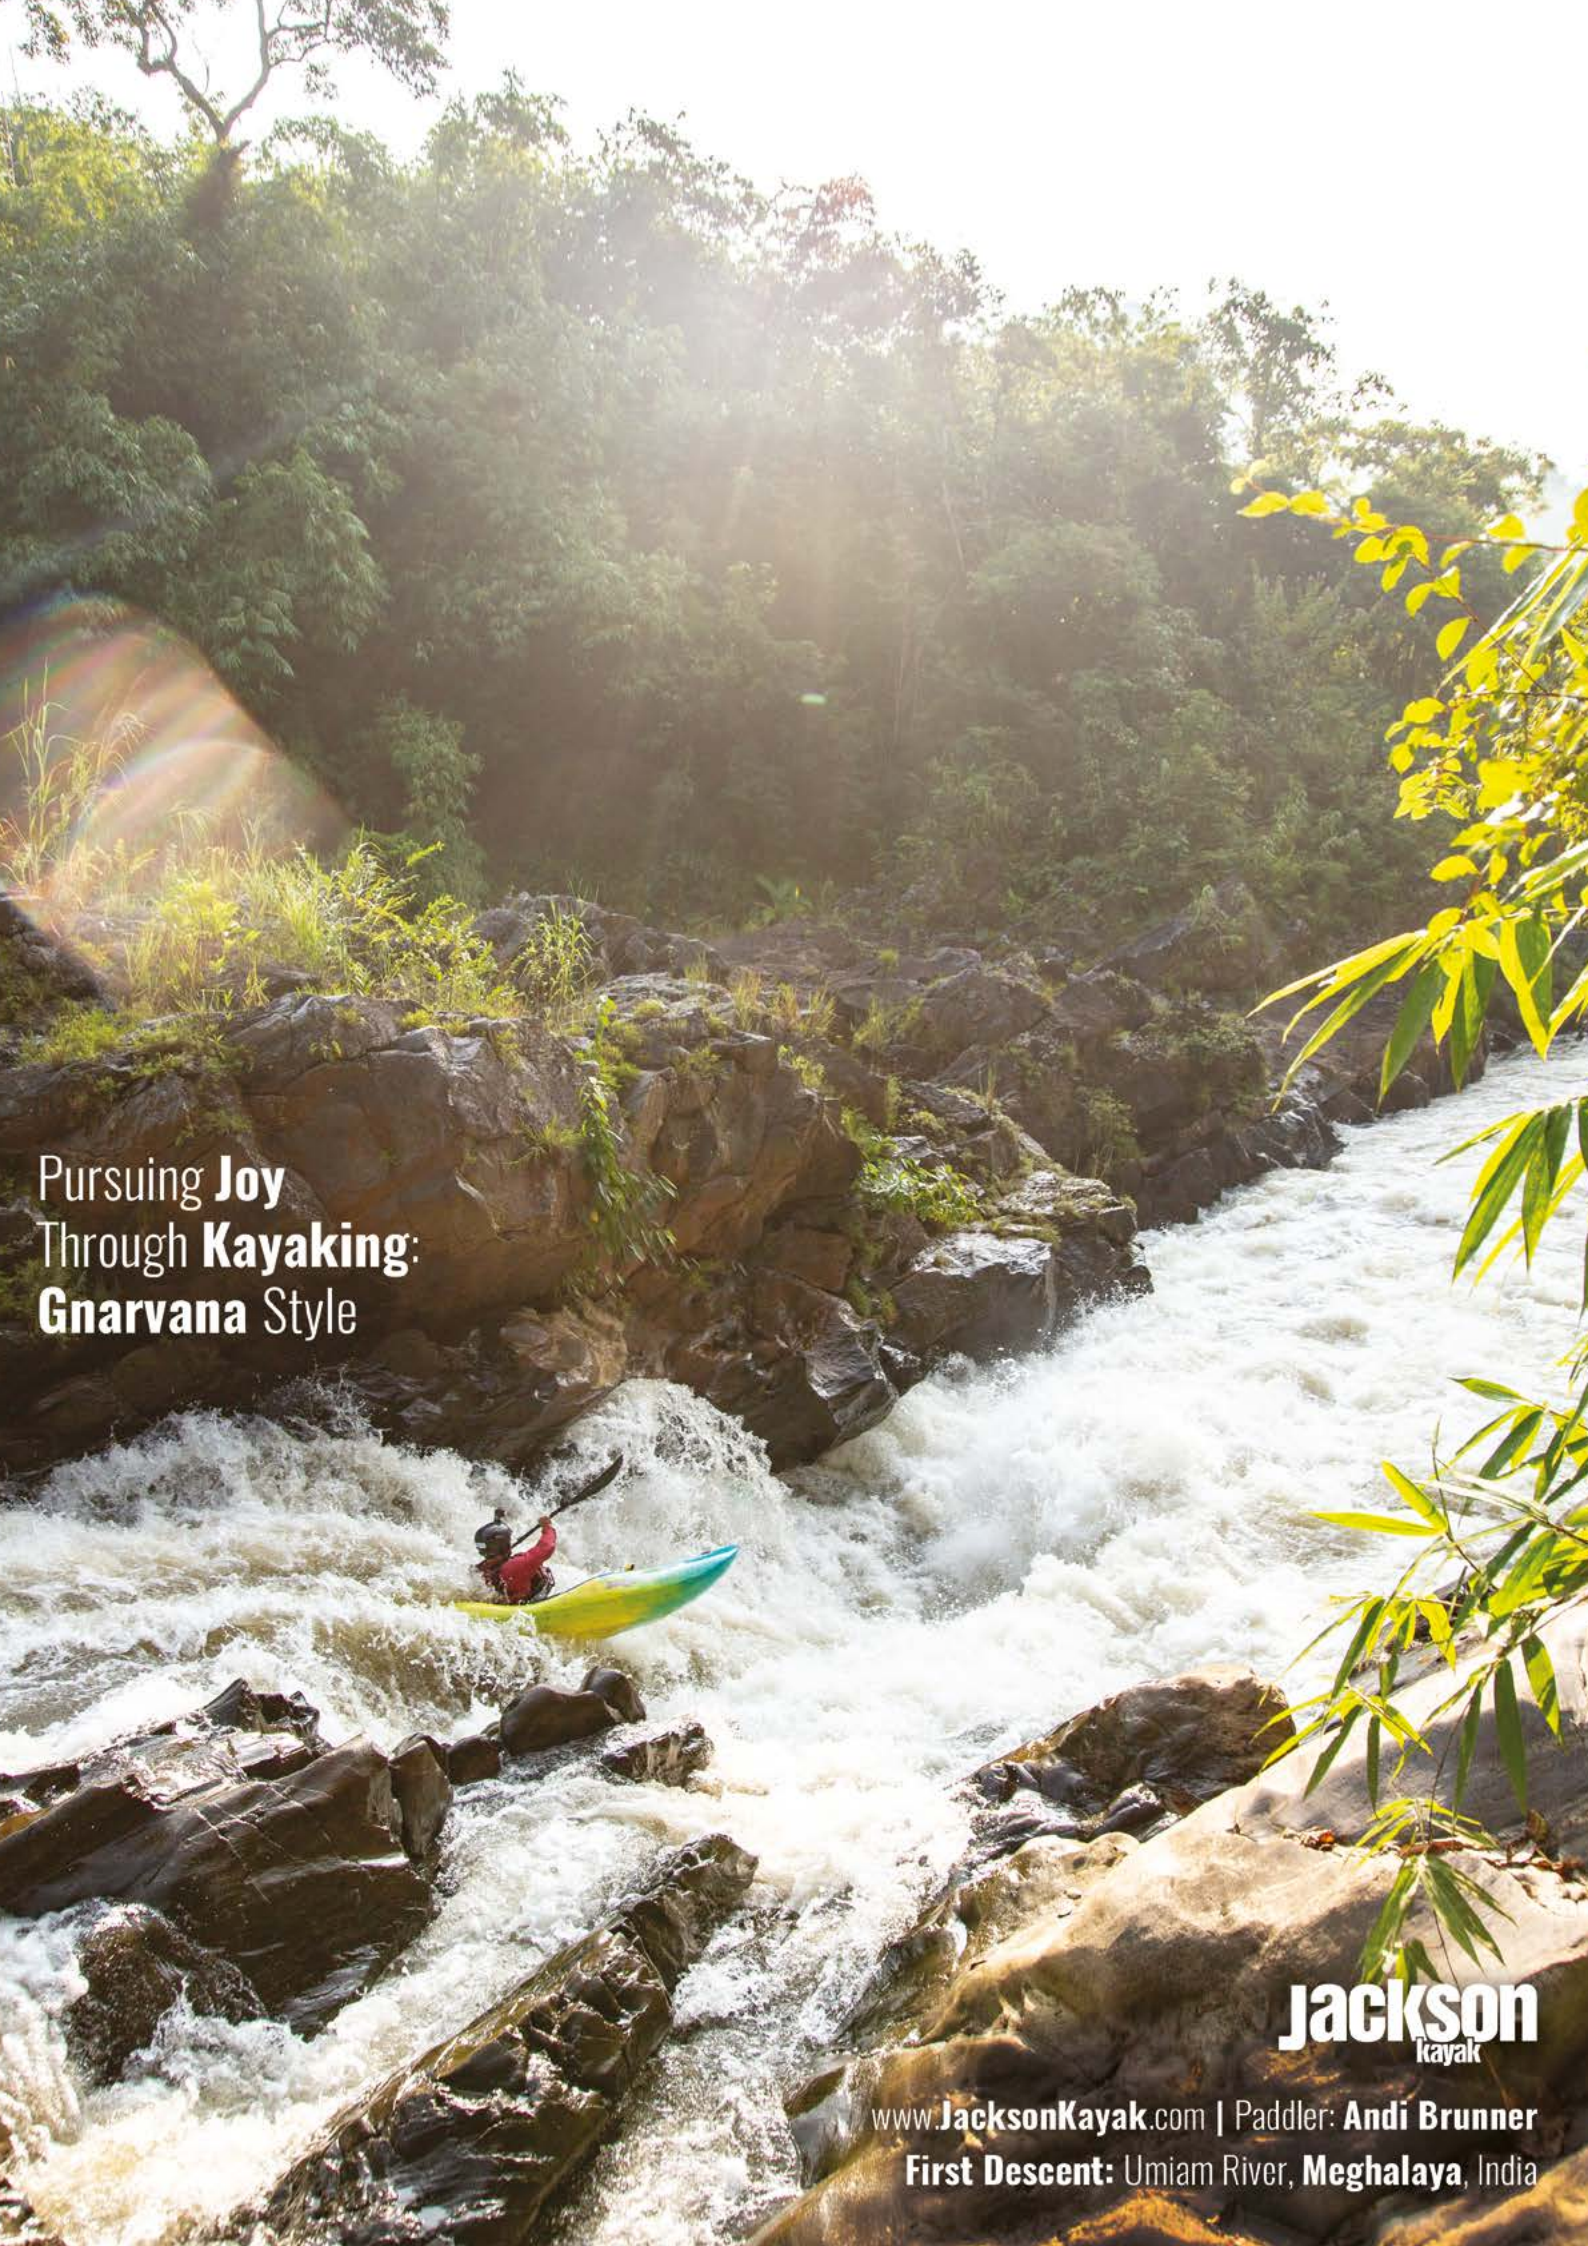

**“WE MUST ALL CONTINUALLY
ASK, “WHY ISN’T MY PADDLING
COMMUNITY AS DIVERSE AS IT
COULD BE?”**

Indigenous populations worldwide have deep roots in paddlesports and ties to the world’s waterways. However, they and their legacy have been largely overlooked or dismissed even as their designs are appropriated for recreation and sport. This omission has undoubtedly been to our detriment. In countries such as Ecuador, efforts to preserve free-flowing rivers and prevent environmental degradation have found indigenous peoples to be powerful allies.

Says Rios to Rivers curriculum director Ashia Wolf-Wilson, “Tribal persons are linked to the lands they come from. When we talk about going out on our waters, it’s personal, and it’s an intimate relationship. In my eyes, I don’t think of kayaking just as a sport, it’s revitalizing connection and people.”

It is well-proven that spending time in nature has physical and emotional benefits, including decreasing blood pressure and stress hormones and helping with cognitive function and overall well-being. A commonly cited virtue of paddlesports is the sense of community and identity they bring. In New Zealand, a traditional Māori style of outrigger canoeing known as Waka Ama is gaining popularity amongst younger populations. “The sport’s strengths and attraction for many of its participants seem to lie in its inclusiveness, accessibility, a firm grounding in Māori and Pacific culture and its focus on hauora (well-being),” writes Sport New Zealand.

Making paddlesports more accessible to indigenous and ethnic minority populations is crucial for the health and growth of our industry and our environment. It is also vital for our health, well-being, and sense of self. By creating space for other voices and experiences, especially those of color, we help our industry and environment have a future. We also might directly contribute to a better, healthier global society.

TOO CLOSE FOR COMFORT

DRAWING THE LINE BETWEEN INSPIRATION AND IMITATION

This fall, brands came under fire for designs that felt a little too familiar. While far from the first (or last) time a “copy cat” call sounded, it raises the question, where do we draw the line between inspiration and imitation? How can we, as an industry, support innovation and unique design?

Innovation for new products comes from many places, with inspiration found through desire or need, a problem we attempt to solve, or pre-existing concepts. Imitation, by contrast, occurs when you directly copy an existing solution to a problem rather than develop a unique idea. Drawing the line between inspiration and imitation can be surprisingly difficult. For Matyas Hilgert of Hiko Sport, the designer's intention is critical. If the goal or essential question driving product development is, “Can we improve what is already out there?” and the answer is yes,” he argues, “then by doing so, you are inherently unique.”

Hilgert reminds us that appearance is only one way to differentiate products. Product performance, functionality, affordability, or sustainability can differ greatly from designer decisions, even if the base aesthetic is similar. In the apparel sector, many brands purchase raw materials from the same sources, placing additional emphasis on product design and quality. Two garments might look similar, but do they perform the same? Do they achieve the same goals in the same way? Frequently, the more advanced or technical a product, the more opportunity for differentiation. Simple splash tops can be more similar than different than, say, dry tops or shorts.

Stand-up paddleboards are another area where similarities can appear to outweigh unique designs, especially inflatables. Scroll through any Paddler's Guide: Most cruiser boards are 10'6"-10'8" long, 29"-32" wide, and 6" tall, with subtle nuances from rail placement and rocker profile to fin boxes, top sheet, and the materials and constructions used.

Materials are frequently a driving factor in innovation and product differentiation, but it is a never-ending game of catch-up as what was groundbreaking becomes standard. Take, for example, drop stitch. In barely a decade, drop stitch transitioned from rarity to the norm for quality inflatables. In 2020, Starboard SUP, among others, debuted inflatables with a woven, not knitted, drop stitch core for lighter, stiffer, stronger, and more responsive boards. More companies are quickly following suit. Soon, a woven drop stitch will become the industry standard until the next innovation in materials or construction is found.

Not all brands have the resources to lead innovation, and no single brand will ever be the sole innovator in their field. “Everyone takes some influence from other sources; it's natural to do so in design. The difference is how close your ideas are to your peers versus sources that are a few steps removed,” argues Palm Equipment's Paul Robertson. Robertson, like many, frequently looks to other industries for ad-

vances and ideas to adapt to paddlesports. “Looking sideways” is a critical source of inspiration. But adapting influences differs from copying a product, especially one within the industry.

The paddlesport industry is small. Most major players in individual sectors are friends who have been in the game for many years. Rather than relying on patents or trademarks, many believe in developing products that are substantially different rather than substantially similar as a matter of respect. Yet, as Hilgert points out, “I can respect someone by staying far away from their design. Or I show someone respect by building upon their idea—basically gratifying that the idea is a good one.”

To quote Oscar Wilde, “Imitation is the sincerest form of flattery.” However, the second half of his statement is often left unsaid: “that mediocrity can pay to greatness.” A lack of originality suggests not understanding the problem you are working to solve.

Take knock-off products, which bring the potential for poorly-made items to fail, endangering users. Gero Priebe of Hobie Kayak Europe points out that even when not life-threatening, a negative experience with a knock-off can turn potential enthusiasts away from the sport. Priebe views supporting brick-and-mortar stores with knowledgeable sales teams as a key way to educate consumers on choosing quality products and the right products for them.

Ultimately, we need new materials, ideas, and vision to grow as an industry. “[Borrowing] heavily from others stifles innovation and ultimately reduces consumer choice, which is not good for anyone in the long run,” reminds Robertson. Rather than investing time and resources into substantially similar products, we are better served by ideas inspired by our needs and experiences. While imitations can drive innovation, we must reward those taking on the risk and expense of R&D to set the bar. We reward them through industry awards, such as the Paddle Sport's Show Product of the Year Awards, which annually showcases new innovations across market sectors. We reward them by being knowledgeable about our history and using that knowledge to educate consumers, encouraging them to support the brands putting in the work.

It's up to all of us to find the line and keep moving the standard forward. As we draw inspiration from each other, the goal should always be to do something better than it's been done before.

RISING ABOVE THE REST

MOVE OVER SUP. THERE'S A NEW BOARD IN TOWN.

Since the beginning of the SUP industry, market participants have wondered how long the popularity of stand-up paddling will last. Are we nearing the end, or will foiling's rise renew enthusiasm for the stand-up market?

From June 2020 to March 2022, paddleboard sales surged as COVID lockdown measures and travel restrictions affected lives on a global scale. Stand-up paddling, with its accessibility, versatility, and gentle learning curve, became a go-to for fitness and leisure while maintaining social distance.

By the end of 2022, the market had become flooded with paddleboards, now found in specialty shops, big box retailers, and even supermarkets. Yet, with travel possible again and the pressures of normal life returning, the influx of participants and the purchase of new boards soon waned. The future of SUP seemed to lose its luster until it seemed that suddenly, foils were everywhere.

Foils have earned accolades for their ability to unlock potential in a wide range of conditions, from flat waters to chop, and for their unparalleled glide. While foiling uses a similar platform to paddleboards, the sensation they generate is something else entirely.

"You get the serenity and the stability of stand-up paddling with the speed and extended glide time of foiling. Though it sounds relatively simple, the upgrade of the feeling is so intense that we don't really have words to describe it," writes LiftFoils on their website.

Like stand-up paddling, part of foiling's growing popularity comes from its versatility. "I love the versatility of the sport," says Indiana Paddle & Surf Co. board developer Gunnar Biniash in an interview with North Kiteboarding. "You can do so much with a foil: wing, windsurf, prone, paddle, dockstart pumping, and kite." A benefit of the increasing cross-over with wind-based sports is getting foil devotees to pick up a paddle on the water on calmer days, especially with boards like the Fanatic Bee or Starboard Hyper Nut, which make multiple sports accessible in one board.

Where foiling differs greatly from paddleboarding are accessibility and ease of use. A large part of paddleboarding's popularity came from its intuitiveness. Users didn't need to be experienced or paddle-fit to enjoy the day out. Foiling, which generates momentum through "pumping," has earned a reputation as a more technical sport than stand-up paddling, or at least one that requires more buy-in before becoming proficient. For Aztron Founder Tony Yeung, this doesn't disclude foiling as a point of entry into the SUP market. Rather, it speaks to the need to develop and market beginner-friendly foil setups that are affordable and easy to use, of which brands are beginning to take note.

"Easier to use is definitely the main driving force for innovation on foil. On one side, more and more experienced SUP paddlers are wanting more excitement, so there is a need for beginner's foil."

**"WHERE PADDLEBOARDING
IS ACCESSIBLE, FOILING IS
ASPIRATIONAL."**

Foiling's technicality benefits the paddleboarding industry by creating a market for a high-end, added-value product that will help keep sales within the industry and generate demand for quality products that maintain higher margins. Where paddleboarding is accessible, foiling is aspirational. As such, it opens the doors to a market driven by different interests than the original paddleboard user, which isn't necessarily negative. Though people of all ages, backgrounds, and interests can find a reason to foil, the market will likely remain niche enough that it is difficult to imagine non-specialty retailers carrying or selling foils en masse.

Alongside new users and retail opportunities, foil's rising popularity allows brands to differentiate themselves in a market saturated with similar products. SUP foils are gaining traction in the surf, flatwater, and racing scenes, driving the innovation of foil-specific boards that feature advances in construction and design. Innovations will continue as brands work to make foiling more accessible and affordable. The push for higher levels of performance, from the ability to generate higher speeds to lighter-weight foils that offer better maneuverability, will also drive innovation and demand for the high-end models.

As foils improve, the more users they will attract. Regardless of how people learn to foil, a paddle is often a preferred method to generate the speed and stability needed to begin pumping or catch a wave. "SUP foiling is still ALL about your paddle. It's your friend, if you let it be, as well as your main source of propulsion. Choose a good one and learn how to use it well," advises Foilshop.co.uk.

Foiling may never match paddleboarding in popularity or growth rate, but it doesn't have to. As the sport grows, it will continue to generate excitement and interest, forcing consumers to look at paddleboarding anew. Ultimately, the foil bubble, too, will burst. Everything does. For the time being, the momentum is set to continue, generating new SUP users, sparking innovation and creating new revenue streams. We might as well enjoy the ride.

OPEN WATERS AHEAD

WHY IT'S TIME FOR THE INDUSTRY TO EMBRACE ADAPTIVE PADDLING

Rather than focusing on the limitations of those with disabilities, it's time for the industry to take note of their ability to participate in paddlesports.

In 2016, paracanoeing debuted at the Paralympic Game in Rio de Janeiro, Brazil, putting an international spotlight on the benefits of getting people with disabilities out on the water. Including a Va'a class, a Polynesian-style outrigger canoe, in the 2021 Tokyo Paralympic Games signifies a broader trend: the paddlesport industry is on board to promote and grow adaptive paddlesports. It's about time.

Though the physical and mental benefits of spending time on the water are well documented, disabled paddlers have been largely neglected by the paddlesport community. These are not small numbers. According to the UN, at least one billion people worldwide have a disability, with control of \$1 trillion in annual income. Even a portion of those resources could have long-lasting benefits for our community and environment. If we want to continue growing adaptive paddlesports—and we do—we need to focus on developing gear, public perception, and access to the outdoors.

Adaptive Gear

26% of people will be affected by disability at some point. Many suffer from arthritis, joint injuries, and other health problems. Adaptive equipment helps them enjoy getting out on the water, too, reminds Bending Branches in a blog post titled "Adaptive Kayaking and Canoeing Get More People on the Water."

"For me paddling is freedom. Freedom to exercise or explore in the same way an able-bodied person would," says adaptive athlete and ICF athlete representative Patrick O'Leary. "I can paddle in a group trading washes and unless people know me they have no idea what's different."

The natural stability of paddle craft has largely left adapting gear up to individuals. However, as more disabled paddlers join the ranks, products designed to take the needs of disabled users into account from the start are increasing, such as the Do Sport Trident Ability Board, seen at the 2022 Paddle Sports Show. The Trident Ability Board combines the stability of catamarans and outriggers with the accessibility of paddleboards in a wheelchair-friendly design that accommodates two people, one seated and one standing.

The ama, or float, used to stabilize outrigger canoes is a highly adaptable and cost-effective way to make paddlesports safer for people with paralysis, spinal cord injuries, or limited coordination. Smaller-scale adaptation can be equally impactful: High-visibility tape or paint on paddles benefits the visually impaired, and mount-supported paddles or grip aids can make paddling more accessible and enjoyable.

Perception & Education

While adaptive equipment helps facilitate an entry point into paddlesports, public perception of disabilities is an ongoing challenge. "Perception is always an issue. People with mobility issues can be perceived as at risk around water," explains

O'Leary, who is an amputee of the leg. "Careful thought is always needed but in most cases a safe method of paddling is available."

ICF Vice President Lluís Rabaneda views perception as a key area where organizations and federations can make a difference. "Awareness is the key hurdle to overcome. We need to continue educating every level of the paddling communities and give the tools to have an easy inclusion of the adaptive paddlers."

Numerous educational resources on adaptive paddling exist, shared through private organizations and national and international federations. British Canoeing, which uses the term Paddle-Ability to refer to all paddlesport activities for disabled people, lists information on "Paddle-Ability" approved programs training, access, and clubs on their website. They remind us that while working with those with knowledge and experience in adaptive-specific paddling strategies is hugely helpful, much can be gained by including adaptive paddling activities in the primary sector rather than separating them.

"Society is moving toward a more inclusive view of itself, where all persons of varying abilities can contribute," says Rabaneda. He continues, "Paddlesports and the paddlesport industry needs to see itself as an active participant in this movement. This means working to increase participation across different channels such as tourism, club, elite levels, or during rehabilitation."

Access to water

Increasing participation across any channel relies heavily on access to water and outdoor spaces, a significant challenge many non-disabled people have never considered. We should, as accommodations that build universal outdoor access, such as boat ramps or improved signage, benefit the entire paddlesport community. Supporting existing initiatives to improve water access is maybe the best place to start concentrating efforts to make paddlesports more accessible.

"Not only are experiences in nature crucial for all human beings, it doesn't take that much to make days on the water possible, says Canadian-based organization Access Revolution Founder Jordan Kertan. Through Access Revolution, Kertan, a recreational therapist, promotes and sells products that improve experiences on and access to the water. She continues, "It takes innovative equipment, a community that supports the vision and the dream to make it happen, and participants who are keen to get outside and enjoy nature together."

WHEN LESS IS MORE

HOW SIMPLIFIED PRODUCTS ARE HELPING PADDLESPORTS WORK TOWARD A CIRCULAR ECONOMY.

A surprising trend is on the horizon: stripped-back products focusing on versatility and durability. Is this the first step to reaching a circular economy?

Being a leader in the paddlesport industry often comes with a dark side: The more we grow, the more waste we generate, and the bigger our environmental impact becomes. It is a reality many are working to change not as an afterthought but from the get-go. "We need to start taking ownership not only for cleaning up the mess but for reducing the mess in the first place," advocates Soul Waterman owner and designer Corran Addison.

At a conference on the Paddlesports Footprint at the Paddle Sports Show in Lyon this fall, environmental consultant Henri Bourgeois Costa spoke of an imagined future with a circular economy where brands took full responsibility for the life of their products, from the materials used in their manufacture to what their end of life looks like and how a product is disposed of. Drawing on the example of Technica, who recently started an initiative to recycle or repurpose the many (17+) materials found in most ski boots, Costa reminded us that shifting the standards of an industry can start with one push.

Durable and versatile products have long been a priority in paddlesports, from apparel and accessories to kayaks and paddleboards. As we refine and reduce our long-term environmental footprint, we expect to see more companies develop products with design innovations focused on durability, recyclability, reparability, and need. It seems simple, but thoughtful design provides a crucial foundation for avoiding products that spend more time in a landfill than on the water.

Peak Paddlesport founder and designer Pete Astles sees product design, including the materials used, as critical. While innovations in the past have focused on using and incorporating recycled materials, "The key now is to design products so that they can be deconstructed and recycled at the end of their usable life. We must all push our suppliers for... components that can be reused, repurposed, or recycled at the end of the product's life."

Unless products can be separated and compacted, the costs and impact of shipping products for recycling are prohibitive and counterproductive. As Costa's Tech-

nica example highlights, separating products into different materials and repurposing them takes thought and effort. There also needs to be a strategy to develop infrastructure and consumer buy-in.

"Ideally, some industry-wide cooperation is required on these items along with consideration of how this can be achieved more easily during the design stage of any product," points out Palm Equipment's Paul Robertson. Astles agrees, advocating for the infrastructure provided "through clubs, dealers, and our own businesses so that our products can be easily returned for recycling and repairs."

Another solution is partnering with organizations such as TerraCycle, which provides free recycling solutions for typically hard-to-recycle waste and maintains large-scale recycling programs in several countries. One program they currently offer in partnership with surf brand RipCurl collects and recycles old wetsuits, while The TerraCycle Global Foundation works to remove plastic waste from waterways.

While it would be incredible if everything could be made with renewable or recycled materials, they don't always provide the durability, longevity, or safety required by paddlesports. For Jochen Lettmann of Lettmann Kayaks, downcycling materials is important, but the best strategy is to encourage the use of products as long as it is safe. Lettmann, whose boats and paddles can last decades, promises customers, "We will do our best to repair your boat or paddle as long as it is possible."

Agrees Matyas Hilgert of Hiko Sport, "Repairability is another way of very effectively extending product life span. Yes, it is not sexy because the word "repair" signals damage, but if Patagonia made the program successful so should we." Hiko has begun small steps towards this goal, including a repair kit with their dry gear and working to educate customers on the need to repair rather than replace.

Being fully responsible for the products we create requires being honest about the need for new products and educating customers to think the same way, even if it means fewer sales in the short term. It requires choosing materials that will last as long as possible with as minimal an environmental impact as possible. It requires getting creative. There is no shortage of opportunities for continued innovation as we work towards this goal.

"Every environmental gain is also a gain for our company, especially regarding the recycling of materials," says Tahe Outdoors in a 2022 interview with Boardsport Source. "The ultimate goal would be to be able to recycle all our boards at the end of their lives, which should be at least ten or twenty years."

Whether through longer-lasting products or products designed to be repaired and recycled, the less waste we generate, the better it is for our world. And that is better for paddlesports.

INTERVIEW: JASON YARRINGTON

TRAILHEAD PADDLE SHACK – TRAILHEAD CANOES, OTTAWA, ONTARIO, CANADA

Trailhead Paddle Shack has been a Canadian landmark for nearly 50 years. It began in 1976 as Trailhead, merging with the Paddle Shack in 2012. We met with co-owner Jason Yarrington to hear his perspective on the past few years, what makes TPS so special, and what is expected for 2023.

Paddlers Guide Magazine: Jason, please introduce your business to us. What does Trailhead Paddle Shack represent to the regional community in Ontario and Quebec?

Jason Yarrington: Ottawa is an amazing area for paddling. We have world-class whitewater, world-class canoe tripping in nearby Algonquin Park, and great touring on our many lakes and the St Lawrence River. Trailhead Paddle Shack is the oldest outdoor store in Ottawa, Canada. Since its beginning, the store has been an institution in the world of paddle sports and outdoor gear in Eastern Canada.

PGM: Trailhead and The Paddle Shack were originally two separate stores, correct? What is the history behind Trailhead, The Paddle Shack, and your merge?

JY: Trailhead was opened in 1976, while I opened The Paddle Shack in 2000. For 12 years, we were competitors in the paddle sports business, located on the same street, before The Paddle Shack purchased Trailhead in 2012.

Trailhead Canoes began in 1976 when the original Trailhead owners began a still-successful guiding business called Black Feather on the Nahanni River in the Northwest Territories. We continue to build all of our canoes in Canada with designs focused on performing on Canada's many rivers and lakes.

PGM: TPS is a larger shop when it comes down to pure paddle sports retail players. What is your take on the fact that retailer numbers seem to reduce yearly?

JY: I am seeing fewer and fewer pure paddle sports stores remaining across Canada. While paddling is our heritage and the main focus for us, from whitewater to sea kayaks, stand-up paddleboards, and canoes, we have diversified to include nordic and alpine touring skis, outdoor clothing, and camping equipment. In Canada, our lakes and rivers are frozen for half the year, so the ability to diversify is essential. Our relatively large size and diversity have helped us in this regard.

PGM: Can you distill what makes Trailhead Paddle Shack what it is and why it works so well into a single sentence?

JY: We hire paddlers in all facets of the sport to provide the best customer service and maintain a large selection of inventory year-round.

PGM: In the two decades since you first founded the Paddle Shack, what main changes have you witnessed in paddle sports?

JY: Since taking over Trailhead in 2012, a few main things I've seen, at least for the North American market, is the change in ownership of many prominent paddling brands from private to corporately owned. From a sales standpoint, the largest changes have been the decrease in whitewater kayak sales, which were highest between 2004-2014, and the rise of stand-up paddleboards.

PGM: We saw you walking around at the Paddle Sports Show in France this past September. What were your biggest motivations for making the trip?

JY: The biggest reason for me to go to the Paddle Sports Show is to meet and talk with the owners and CEOs of the brands, as well as discuss business with industry members outside of North America. I've found that this show has been great for finding unique brands that aren't as prominent in North America, which we can then bring to our customer base in Canada. For example, since first attending the show a couple of years ago, we have been warehousing and distributing Norse Kayaks and partnered with Wave Sport, bringing it back to Canada.

PGM: When coming to the Paddle Sports Show, you also come as a manufacturer of Trailhead Canoes. Do you have distributors in Europe? What are you looking for at a show as a manufacturer?

JY: No, I don't currently have distribution set up in Europe, but I do sell Trailhead Canoe products to several accounts across Europe and the UK. Maybe one day, we'll have Trailhead Canoes across Europe!

PGM: How have the past three years been for your shop? Have there been challenges as a retailer?

JY: The last three years have been amazing for us. We worked really hard to find and buy inventory to meet the demands for boats and paddling gear, and it paid off.

PGM: How would you describe 2022 as a retailer?

JY: 2022 was a whirlwind year. In terms of not knowing how long the increase in demand would last. By July, the bubble had burst, and we've since seen a return to pre-pandemic sales in many areas.

PGM: How do you forecast 2023? What is your strategy for 2023?

JY: I think 2023 will see sales slightly higher than in pre-pandemic years. I believe the largest decreases will be in inflatable paddle boards and small rec kayaks. High-end canoes and sea kayaks continue to be an area where we expect growth. Coming out of the pandemic, hopefully, we'll see a large portion of customers who purchased their first SUP, kayak, or canoe become lifetime paddlers.

EQUIPMENT

Equipment broadly encompasses all the little pieces that make a big difference, from inflation systems to roof racks to the PFDs that keep us safely and comfortably afloat. Splash gear, dry gear, and a wide range of base-layer options make going on adventures more feasible and more pleasant, no matter the weather. Spraydecks keep us in and water out, while accessories allow us to customize our gear and stay out of harm's way.

DRY SUITS

DRYSUITS DESIGNED TO KEEP YOU DRY AND COMFORTABLE WHETHER ON THE RIVER OR THE OCEAN, WITH WOMEN'S-SPECIFIC FEATURES AND CUTS.

NEW
2023

NRS - WOMEN'S CRUX DRY SUIT

From the steep creeks in the East to the voluminous rivers in the West, the NRS Women's Crux Dry Suit keeps paddlers warm and dry from the coldest Class III to the most remote Class V. Classic front-entry/drop seat design combines with waterproof-breathable material and smart details to put this dry suit at the top of a paddler's wish list.

Sizes: XS . S . M . L . XL | **Material:** 4-layer Eclipse™ | **Colors:** Jade . Red

[NRS.COM](https://nrs.com)

GORE-TEX PRO

NEW
2023

NRS - WOMEN'S NAVIGATOR GORE-TEX PRO SEMI-DRY SUIT

Quickly adapt to the unpredictable conditions of open-water paddling. The NRS Women's Navigator GORE-TEX Pro Semi-Dry Suit delivers superior waterproof, breathable protection designed to keep paddlers drier in high volume waters. In the Navigator, you can go with the tides and not let rain or squalls send you back to shore. The contoured volcano-style neoprene neck gasket dramatically increases comfort over a traditional latex gasket, and the articulated storm hood with multiple bungee adjustment points offers a custom fit. Volcano-style wrist over cuffs cover more surface area to reduce water contact with the gaskets underneath, while tough yet supple mesh drains any water caught between the two. Dropseat for easy relief even at sea. Constructed with 3-Layer GORE-TEX® Pro for best-in-class durable, waterproof-windproof-breathable performance.

Sizes: XS . S . M . L . XL | **Material:** 3-layer GORE-TEX® PRO | **Colors:** Aqua

NEW
2023

SANDILINE - KAYAK SUIT EXTREME 4L WS

The new Lady's Extreme 4L Drysuit is designed to give the best performance for extreme kayaking and white-water activities. This suit is made with a breathable and highly waterproof 4 layer cloth with Cordura reinforcements. A single zipper acts as a main entry zipper and a relief zipper, decreasing bulk and making the suit lighter, more comfortable, and easier to put on and take off. The new shape is designed for more freedom of movement, and unparalleled durability.

Material: Breathable & Waterproof 4 Layer Cloth | **Waterproof:** 20.000 mm | **Breathable:** 9.000 g/sqm/24h | **Features:** Welded seams, Single TiZip masterseal dry zipper, Latex gaskets on wrists & neck, Superstretch neoprene gaskets, Cordura reinforcements, Reflective logos & inserts

[SANDILINE.COM](https://sandiline.com)

UPDATED

LEVEL SIX - FREYA

The Freya is a deluxe front-entry, women's specific dry suit designed to stand up to the toughest tests on the water. This dry suit is constructed using our toughest waterproof-breathable nylon; Exhaust 3.0 and comes complete with features like the stealth double tunnel system, articulated spine, knees & elbows, rear relief zipper, and an adjustable waist-belt. From the SUP to whitewater, the Freya front-entry dry suit will have you feeling like a Norse Goddess.

Sizes: XS . S . M . L . XL . XLS | **Color:** Merlot . Crater Blue

[LEVELSIX.COM](https://levelsix.com)

AZTRON - MISSION WOMEN'S DRY SUIT

The women's MISSION Drysuit is constructed of high waterproof fabric. It features TiZIP front entry and rear relief zippers, 2 sleeve pockets, thigh pocket, a removable hood, a pile-lined collar and reflective accents on the arms and hood. Everything you need for your sea adventure!

Size: S - M . L - XL | **Materials:** 3-Layer Microfiber Waterproof Fabric . Smooth Skin . TiZIP MasterSeal Zipper | **Suggestion:** Icy, -6°C-12°C / 21°F-54°F

[AZTRONSPORTS.COM](https://aztronsports.com)

NEW
2023

HIKO SPORT - CALYPSO AIR4.X W.DRY SUIT

The CALYPSO Air4 is a top of the line women's dry suit that is here to keep you warm and dry even while pushing the boundaries of what's possible in a kayak..

Colors: Inferno . Kaituna | **Sizes:** WS . WM . WL . WXL . W2XL

[HIKOSPORT.COM](https://hikosport.com)

NEW
2023

NRS - WOMEN'S ORION PADDLING JACKET

The NRS Women's Orion Paddling Jacket gives touring paddlers confidence with waterproof protection, quick-adapting features and a less-restrictive neoprene neck seal. The four-layer Eclipse™ fabric and double-tunnel design provide dependable dryness, breathability and toughness at prices that won't break the bank. The articulated, fully adjustable hood fits comfortably with or without a helmet and stows compactly when not in use, while the perforated face shield with a soft fleece interior blocks wind and spray without restricting airflow. Paddler's Cut™ guarantees ease of movement and athletic fit. New for 2023.

Sizes: XS . S . M . L . XL | **Material:** 4-Layer Eclipse™ | **Colors:** Lime

[NRS.COM](https://nrs.com)

NEW
2023

NRS - WOMEN'S HELIUM SPLASH JACKET

As your skills advance, so should your gear. Keep up the paddling progression and level up to harsher conditions with the NRS Women's Helium Jacket, a premium splash top featuring factory-taped seams and technical HypoTex™ 2.5 fabric that wicks moisture away from your layers while repelling water on the exterior. The kayak overskirt and tunnel keep your cockpit dry, and the Paddler's Cut™ provides maximum mobility and room to layer without bulk under your PFD.

Sizes: XS . S . M . L . XL | **Material:** 40-denier 2.5 layer HypoTex™ | **Colors:** Meditteranea/Aqua

[NRS.COM](https://nrs.com)

NEW
2023

NRS - WOMEN'S RIPTIDE SPLASH JACKET

In the NRS Women's Riptide Jacket, you'll never wish you had stayed on the couch. Advanced waterproof-breathable technology pairs with an articulated hood, kayak overskirt and neoprene wrist gaskets to cover all your needs while prominent reflective accents increase visibility and open-water safety. Breathable HypoTex™ 2.5 fabric wicks excess heat and moisture for maximum waterproof performance. Punch-through neoprene wrists offer more comfortable protection than latex gaskets.

Sizes: XS . S . M . L . XL | **Material:** 40-denier 2.5 layer HypoTex™ | **Colors:** Aqua/Mediterranea . Poppy

[NRS.COM](https://nrs.com)

HIKO - NIMUE AIR4.X W. DRY TOP

The Nimue is designed to transform paddling the heaviest whitewater into dancing with waves. Ergonomically designed for female paddlers but lacking nothing on the Paladin, the Nimue embraces the female shape to offer maximum freedom of movement in a streamlined silhouette. Latex wrist and neck gaskets are protected by longer neoprene cuffs and high neoprene collar. A double tunnel waistband with microskin — neoprene with an adhesive finish for maximum seal against your sprayskirt—and our "Double Pull" system for a perfect fit.

Materials: Air4 . Cordura | **Sizes:** WS . WM . WL . WXL . W2XL | **Colors:** Inferno . Kaituna

[HIKOSPORT.COM](https://hikosport.com)

LEVEL SIX - NOVA

The Nova is a women's-specific drytop constructed from a combination of our eXhaust 3.0-ply waterproof-breathable nylon on high-wear areas like the shoulders and arms while keeping the jacket light with our eXhaust 2.5-ply waterproof-breathable nylon on the torso. The Nova is designed to give you a completely unrestricted range-of-movement. The overlapping double tunnel and the Stealth Waistband system work with your skirt tunnel to provide you with a drier seal and better paddling experience.

Sizes: XS . S . M . L . XL . XL | **Color:** Crater Blue . Merlot

[LEVELSIX.COM](https://levelsix.com)

KOKATAT - WOMEN'S STOKE DRY TOP

The women's Stoke is an excellent all-around drytop that provides outstanding performance and features Kokatat's proprietary waterproof and breathable Hydrus 3.0 fabric. Hydrus 3.0 consists of a tough nylon outer layer with a DWR finish to keep water out while a polyurethane micro-porous middle layer and a soft polyester inner layer work in tandem to manage interior moisture. The Stoke has a dual adjustable neoprene overskirt, a self-draining zippered chest pocket, factory sealed seams, latex gaskets, and neoprene punch-through collar and wrist cuffs.

Sizes: S . M . L | **Colors:** Reef . Berry

[KOKATAT.COM](https://kokatat.com)

LEVEL SIX - ELLESMERE

The Ellesmere is a lightweight three season paddling jacket. This jacket is constructed from our eXhaust 2.5 waterproof-breathable nylon and features a zip-away/removable hood, high collar, adjustable wrist closures and an adjustable waistband.

[LEVELSIX.COM](https://levelsix.com)

KOKATAT - WOMEN'S JETTY JACKET

Lightweight, versatile, and packable, this women's splash jacket features a pile-lined collar with a 1/4 front zip and removable multi-adjustable hood, "hook & loop" adjustable neoprene waist, and an adjustable gusseted neoprene splash cuffs. The Hydrus 2.5 waterproof breathable fabric keeps you comfortable and dry. The Jetty also features a self-draining sleeve pocket.

Sizes: S . M . L | **Colors:** Electric Blue . Orange

[KOKATAT.COM](https://kokatat.com)

LYCRA, FLEECE, SYNTHETICS SUITS

INSULATION AND WARMTH FOR ON THE WATER OR LOUNGING AT CAMP.

NEW
2023

NRS - WOMEN'S LIGHTWEIGHT UNION SUIT

Layered under dry wear or worn solo at camp, the Union Suit is the key to shoulder season perfection. Recycled Eco Blend, high-stretch midweight fabric provides unrestricted range of motion and enhances breathability, letting excess moisture escape while retaining body heat. The soft, gridded interior delivers cozy comfort while the dropseat zipper lines up with your dry suit for midday convenience.

Sizes: XS . S . M . L . XL | **Fit:** Form Fit | **Material:** 71% recycled polyester . 17% polyester . 12% spandex | **Colors:** Vino

[NRS.COM](https://nrs.com)

WOMENS

KOKATAT - OUTERCORE HABANERO LINER

The Habanero takes the dry suit liner to a new level with body mapped fabrics and its unique zipper system. This paddling specific, one-piece insulator is compatible with all Kokatat dry suits including those with SwitchZip. The suit has a long front entry zipper and a second waist zipper that acts as a drop seat.

Sizes: (Men) S . M . L . XL . XXL (Women) S . M . L . XLS | **Color:** (Men) Coal (Women) Ocean

[KOKATAT.COM](https://kokatat.com)

LEVEL SIX - VESTA INSULATING UNI SUIT

The Vesta uni-suit is a light yet warm layer to be worn under your paddling gear. The uni suit features a low profile collar to ensure comfortable wear under a paddling jacket and is constructed with flat-lock seams to prevent chafing and provide free movement. It includes a front and drop seat relief zipper for when nature calls. It will become your favourite piece of gear on and off the water.

Sizes: XS . S . M . L . XL | **Color:** Black

[LEVELSIX.COM](https://levelsix.com)

WOMEN NEOPRENE

INSULATION DESIGNED TO KEEP YOU WARM WHEN WET.

NEW

SANDILINE - KAYAK SUIT BLACK EDITION

The Black Edition redefines the standards of a kayak drysuit. Specially designed for white water adventures and equipped with excellent technical features like the stretch cloth, the reflective inserts and a 100% waterproof pocket. The new cut guarantees unparalleled freedom of movement, while avoiding friction of the cloth and thus prolonging the lifetime of the dry suit. The TIZIP has been strategically placed on the torso, ensuring maximum freedom of movement. Thanks to the partnership with FIDLOCK we have designed a 100% waterproof pocket sealed with patented Gooper technology, able to accommodate a Smartphone up to 6.5 inches.

Material: Extremely durable 3-layer cloth .
Stretch cloth | Waterproof: > 25,000 mm |
Breathability: > 6000 g / m² / 24h | **Features:**
Welded seams, TIZIP® Masterseal hinges,
Double latex and ultraspan, Neoprene cuffs on
neck and arms, Heavy-duty CORDURA®, 100%
waterproof Fidlock pocket

NRS - MEN'S AXIOM GORE-TEX PRO DRY SUIT

When the conditions are savage, staying warm and dry trumps bells and whistles every time. A basic dry suit design with a beyond-basic construction, the NRS Men's Axiom Dry Suit uses GORE-TEX® Pro fabric to offer kayakers superior waterproof, breathable protection. Features include a YKK front chest zip for ease of entry and a re-designed waistband for a flatter, more comfortable fit while sitting. Strategically placed seams allow for a full range of motion while reducing friction wear points, enhancing the product's life. Stay drier on high-volume rivers: the volcano-style over cuffs prevent fraying and water entry; mesh panels promote water drainage. Cordura-reinforced ankles, Gore-Tex Pro socks, and elasticized ankle cuffs streamline design and add durability.

Sizes: S . M . L . XL . XXL | **Fit:** Relaxed Fit |
Material: 3-layer GORE-TEX® PRO |
Colors: Blue . Chartreuse

PERFORMANCE // REIMAGINED

BACK TO THE DRAWING BOARD

Determined to create the ultimate dry suit for paddlers, we started over at the beginning. We collected input from the planet's best paddlers and designed every cut and cuff, seam and seal, to their specifications. Then, we built the Axiom with reliable YKK® AquaSeal™ zippers and the most advanced waterproof-breathable material ever made, GORE-TEX® Pro. The result is a dry suit that not only outperforms all others, but re-defines what a dry suit can be.

Available at select retailers world wide.

TOURING JACKETS

JACKETS TO SHED WATER AND AND PROTECT FROM THE ELEMENTS WHILE EXPLORING ON LAKES OR THE OCEAN

NEW
2023

NRS - MEN'S RIPTIDE SPLASH JACKET

A splash jacket only on paper, on the water, the NRS Men's Riptide Jacket delivers advanced waterproof, breathable protection for paddlers willing to gamble on the conditions. The articulated hood and half-zip neck give quick adaptability to changing conditions. The kayak overskirt and neoprene wrist gaskets help stay drier and provide all-day comfort. Prominent reflective accents increase visibility and open-water safety; breathable HyproTex™ 2.5 fabric wicks excess heat and moisture for maximum waterproof performance. Punch-through neoprene wrists offer more comfortable protection than latex gaskets. Three adjustment points on the articulated hood provide a customized fit; two bungee cinches at the neck and one on the back of the hood. Two splashproof, zippered sleeve pockets allow for stashing small essentials.

Sizes: S . M . L . XL . XXL | **Material:** 40-denier 2.5 layer HyproTex™ | **Colors:** Flare . Chartreuse/Gray . Blue

NRS - CHAMPION JACKET

Adventure anglers head to the water even when the clouds threaten and the couch beckons. The NRS Champion Jacket is fishing functionality at its finest. Neoprene cuffs keep water out, whether you are reaching in water to grab fish, landing and releasing, holding the rod and reel, or taking paddle strokes to the next zone. The zipper-close pockets are fleece lined and placed for easy access even when wearing a PFD. The adjustable hood offers adaptable protection. Relaxed fit with room in shoulders and reflective accents on the hood let you can cast in comfort. The HyproTex™ 2.5 mm material is durable, breathable, and lightweight and comes in colors that won't startle fish or disrupt the environment. Pair with the Champion Bibs for maximum protection.

Sizes: S . M . L . XL | **Material:** 70-denier 2.5 layer HyproTex™ | **Colors:** Olive/Dark Shadow

New for 2023: The NRS Tor Jacket delivers lightweight, waterproof protection with quick-adapting features for unpredictable conditions. Explore peaceful lochs and splashy harbors in comfort and style. The paddler's cut enhances athletic performance while the half-hip hoodie design offers efficient ventilation and easy layering or de-layering; stow when not in use.

Sizes: S . M . L . XL . XXL | **Material:** 40-denier 2.5 layer HyproTex™ | **Colors:** Blue . Red

[NRS.COM](https://www.nrs.com)

PALM EQUIPMENT - CHINOOK JACKET

Paddle on lake, river or sea, through wind, rain and spray. The Chinook is light enough to pack away small, but with the waterproof protection you need when the weather rolls in. A volume adjustable hood keeps the wind and rain out, and the internal adjustable neck closure and latex wrist gaskets keep out waves.

Sizes: S, M, L, XL, XXL . WS, WM, WL, WXL | **Colors:** Cobalt, Gold (Mens), Gold (Womens)

[PALMEQUIPMENTEUROPE.COM](https://www.palmequipmenteurope.com)

LEVEL SIX - KENORA

The Kenora is a full-featured 3-season jacket. It is very lightweight and compact thanks to our award-winning eXhaust 2.5 UL waterproof breathable nylon. This jacket features eXhaust 2.5 on the high wear areas to give the ultimate combination of weight savings and abrasion resistance. The double tunnel and single Stealth cinch waist system work with your skirt tunnel to provide a great seal at the waist, while the adjustable cuffs ensure a watertight seal at the wrists.

Sizes: XS . S . M . L . XL . XXL | **Color:** Citron . Molten Lava

[LEVELSIX.COM](https://www.levelsix.com)

PEAK PS - TOURLITE HOODY

The Tourlite Hoody is perfect for 3 season touring and sea kayaking. Great too for guided use where your clients require a little more protection and performance from their kit. Made using recycled polyester and sustainable Bioprene neoprene seals.

Materials: Breathable and durable X2.5 lightweight recycled polyester with 10m waterproofing . Aquaout sustainable Bioprene wrists and waist seals | **Features:** Recycled YKK pocket zips | **Weight (M):** 490 g

[PEAKUK.COM](https://www.peakuk.com)

PEAK PS - ADVENTURE SINGLE DOUBLE EVO

Tough, waterproof and breathable X4 recycled nylon fabric, with twin sleeve pockets, stowable hood in a fleece lined collar and a double waist makes the Adventure Double the ultimate multi-day paddle jacket.

Materials: Breathable and durable X4 midweight recycled ripstop nylon with 20m waterproofing | **Features:** Reinforced heavyweight X4 elbows . Recycled YKK pocket zips | **Weight (M):** 990 g

[PEAKUK.COM](https://www.peakuk.com)

PALM EQUIPMENT - VANTAGE JACKET

A single waist paddling jacket that's quick and easy to throw on when the weather changes. The fleece-lined kangaroo-pouch pocket will keep your hands warm and out of the wind. Wear it to paddle or just to walk the dog. It packs down into its own hood to store away for an unexpected downpour.

Sizes (men's): S . M . L . XL . XXL | **Sizes (women's)** WS . WM . WL . WXL | **Colors:** Chilli . Ocean . Olive (Mens) . Purple . Teal (Womens)

HIKO SPORT - ZEPHYR BALLER COMBO

Tasked with building the ultimate decktop for extreme slalom the choice of design was simple. We selected our BALLER 87 skirt with a reinforced deck that is ready to take the boat on boat beating. It would not be for racing if was not attached to the ZEPHYR top - light and stretchy so you can let the rest follow your tail.

Low profile, high performance race PFD giving superb comfort and minimum restriction. Not only great for competition paddlers, but also perfect for SUP, touring or fitness paddling. The Racer Pro has been worn by multiple Olympic, World and European Champions.

Certification: ISO 12402-5 approved and ICF registered | Floatability: 45-60N of Gaia environmentally friendly soft flotation foam | Weight (LXL) : 630 g

PEAKUK.COM

HIKO - SALUKI K+PFD

Low profile vest designed for competitive racing. A Low profile front panel plus flexible neoprene shoulder straps give a comfortable fit without restricting movement. Foam is shaped to stay closer to the body of the racer. The vest has three side-adjustable straps running the circumference to provide an ideal fit and internal high-strength shoulder straps for safety. Two different versions provide the best fit in each discipline; One is for kayakers with shorter shoulder straps and one for canoeists with longer shoulder straps. Approved by the ICF and ISO 12402-5 and 12402-6 certified.

Sizes: XS. S/M . L/XL | Colors: Black | Certification: ICF Approved . ISO 12402-5 and 12402-6

SECUMAR - FREE 100

An inflatable Rescue Device for swimmers, stand-up-paddlers and all watersports on and in the water. Fully-fledge inflatable lifejacket buoyancy chamber with 100 N; Quick activation in only 3 steps; Lightweight: only 500g; Printed folding instruction; Reusable by replacing CO2-cartridge; 2-tone whistle; Protective cover made of cordura; Rapid stabilization of men and vest: After stabilization, head and airways remain above the water level.

Sizes: > 40 kg /50 N |
Colors: Black/Orange

[SECUMAR.COM](https://secumar.com)

SECUMAR - VIVO 100

The folded, packed VIVO 100 offers even better mobility and doesn't offer buoyancy when you don't need it. This inflatable lifejacket is manually fired, so you can perform an Eskimo roll or similar manoeuvre with less hindrance and only pull the firing cord when necessary.

Sizes: > 50 kg /100 N |
Colours: Orange/Navy

[SECUMAR.COM](https://secumar.com)

SECUMAR - FURIO

The innovation award 2023 winning SECUMAR FURIO is a new hybrid impact vest and was developed especially for kite-surfing, foiling- and skiff-sailing or SUP. The FURIO combines the advantages of a 50 Newton buoyancy aid with impact protection with the benefits of an additional manually activated 110 Newton lifejacket buoyancy chamber, providing a total of 160 Newton of buoyancy in a potentially dangerous situation.

BALTIC LIFEJACKETS - SUP PRO

The SUP PRO buoyancy aid is developed specifically for Stand Up Paddleboarding. The SUP Pro is designed to give the user maximum mobility, both on the board and in the water. This buoyancy aid has a long body, which is well suited for SUP use. Suitable for beginners as well as experienced paddlers it is designed to give the user maximum mobility, both on the board and in the water. The buoyancy material has a unique design and division on the front. It is thin, compact and flexible which makes it easier for the wearer to get up on the board from the water and makes the buoyancy aid follow the paddle movement.

Sizes: 30-50kg, 50-70kg, 70-90kg, 90+kg |

SECUMAR.COM

PEAK PS - RACER PRO YOOF

The perfect first-time PFD for your little paddler, with a low profile cut giving superb comfort & minimum restriction. Great for learning the paddling basics but equally at home at a competition or simply splashing around. Discrete removable crotch strap, compatible with spraydeck tunnels.

Sizes: Y | **Colors:** Lime. Orange

PEAKUK.COM

ANGRY MULLET - LACHINE

As a parent with a child that's starting to push their limits, everything changes when there is the possibility of a child being sucked down. Most crotch straps don't work, and if the child doesn't tighten the jacket properly, it can come off. The Lachine features an internal sticky neoprene belt that you close around the child's waist. This prevents the jacket being pulled up over the head. Two angled "armpit" straps are synched down, which prevents the jacket riding up over the chin. And lastly, the snap buckle in the front can be passed through the loop on the LOVE sprayskirt.

Sizes: One size (kids 6-12)

PEAKUK.COM

ANGRY MULLET - LOVE

The LOVE is made for the Sould Waterman Ride and Firefox XS. Super stretch Neoprene with bungee tension regulation makes it easy to get on and off. This helps kids become independent, while allowing you to set skirt pop tension to your kids skill level. It also comes with a waist loop so a strap from the front loop can be added for an "easy-to-find" pull strap, or to clip a PDF front buckle into to ensure that your child's vest can never come off.

Sizes: XS . S

SOULWATERMAN.COM

ANGRY MULLET - DINO

This skirt is designed for really young kids who have neither the mental presence nor the strength to pull a skirt off the boat in the event of a capsize. Keeping water out of the boat allows them to progress and play about in waves without water swamping the boat, as well as mentally making the use of a skirt a "normal" part of the equipment. In the event of a capsize, the skirt pulls off on its own—the flipping action itself pulls on the skirt sides, and it pops off.

Cockpit size: Mini Cockpit | Tunnel size: Adjustable waist

SOULWATERMAN.COM

PALM EQUIPMENT - ROANOKE DECK

For extended adventures by kayak the right spraydeck is vital. Get the protection of a neoprene deck with the breathability of a fabric waist tube with the Roanoke spraydeck. Equipped with elasticated deck lines and a light waterproof XP 3-layer waist tunnel the Roanoke has a durable reinforced rim and is shaped for comfort on long paddling trips.

Sizes: Deck: R3' R4' R5' R6 Waist: adjustable (60 – 127 cm)

FOILS & WINGS

FINS AND WINGS USED TO REPLACE OR UPGRADE YOUR FOIL BOARDING SET UP.

AZTRON - ROCKET FOIL 1450H/1800H

The ROCKET High Aspect range 1450H and 1800H are total carbon high-performance foils designed to be the fastest and most efficient foils for upwind and downwind. In this new season, the 1450H has undergone a radical evolution - a higher aspect ratio front wing, combined with a more powerful profile, ensures maximum efficiency. We have also changed the fuselage to a shorter and thinner style and made it tight fit onto the wings. All these changes have allowed us to improve all of the characteristics of the original ROCKET 1450 literally.

Front Wing Size: 1450H / 1800H cm² | Back wing size: 320H / 310H cm² | Mast length: ALU 60 / 70 cm | Mounting: Track Foil Mount | Front Wing Screws: M8 x 30mm / M6 x 30mm | Rear Wing Screws: M8 x 12mm / M6 x 28mm | Weight: 3.8 . 4 kg

AZTRONSPORTS.COM

AZTRON - ROCKET FOIL 1650/2000

The ROCKET 1650 and 2000 show incredible manoeuvrability and maximum stability at high speed, making them faithful companions for the riders in the early and progressing foiling stage. The fuselage and base plate were re-engineered for the new season. Combined with the advanced prepreg carbon construction, the overall setup promises the lightest combination with maximum control and speed. As the larger size in the range, the ROCKET 1650 and 2000 guarantee great stability and a smooth and comfortable riding experience.

Front Wing Size: 1650 / 2000 cm² | Back wing size: 450 / 450 cm² | Mast length: ALU 70 / 70 cm | Mounting: Track Foil Mount | Front Wing Screws: M6 x 42mm / M6 x 40mm | Rear Wing Screws: M6 x 28mm / M6 x 28mm | Weight: 4.2 / 4.3 kg

AZTRONSPORTS.COM

SIC - FLITE

The Flite range with aluminum mast and fuselage, focuses on the key discovery & progression phase, where plug-and-play accessibility, take off and stability in flight will get you addicted to the thrill of Wing Foiling quickly

Mast: 75 cm | Stab: 300 cm² | Fuselage: 85 cm | FW: 1500 cm² | Material: Aluminium + Carbon

SICMAUI.COM

TAHE - AQUILON FOIL 1500

Complete package foil with aluminium fuselage and carbon front wing and stabiliser. Easy take-off and great stability at high speed.

Mast: 75 cm | Stab: 450 cm² | Fuselage: 85.5 | FW: 1500 | Material: Aluminium + Carbon

TAHESPORT.COM

SIC - SLASH

The Slash range in carbon construction (mast and wings) is all about maximum glide, high-speed, and hard carving for those who want to push Wing Foiling to the maximum. New & innovative flipping central fuselage: allowing you to trim your foil performance simply by flipping the orientation of the fuselage. Adjustment towards manoeuvrability or pumping.

Mast: 90 cm | Stab: 250 cm² | Fuselage: 73 cm | FW: 1200cm² | Material: Aluminium + Carbon

SICMAUI.COM

TAHE - TECHNO WIND FOIL OD

A high performance foil which is also easy to use and robust. The mast and fuselage are made from aluminium for high resistance and value for money. The G10 front wing gives a great combination of strength and performance.

Mast: 90 cm | Stab: 260 cm² | Fuselage: 91 | FW: 850 | Material: Carbon + Aluminium

TAHESPORT.COM

INDIANA - DOCKSTART 1200 H-AR COMPLETE (CARBON MAST)

The new High Performance Foil Series also comes in complete sets to make every foilers life easier. With this setup you're perfectly equipped for the next Dockstart adventure and don't have to think about all the separate parts individually. And the best part is, you can use this set up also for wingfoiling. If wanna add more agility just exchange the 420 stab for a 520 stab.

Frontwing: 1200H-AR | Flat Surface: 1658 cm² | Full Surface: 1954 cm² | Span: 1200mm | Chord: 185mm | Profile Depth: 28.5mm | Aspect Ratio: 8.68 | Weight: 1150 g . Material: 100% Carbon . PVC Foam. Epoxy | Production Technique: Mold

AZTRON - SOAR AIR WING 3.0/4.0; AIM AIR WING 4.0/5.0/6.0

AZTRON's new Air Wings have arrived for the 2023 season! Compared to the previous version, we break the wings into two ranges - SOAR 3.0/4.0 and AIM 4.0/5.0/6.0 to the collection. The SOAR 3.0 and 4.0 are created specifically for entry-level riders who pursue stable and effortless drift. The design goal of the new AIM wings was simple, a high-performance wing structure with innovative material technology and improved design such as increased segments, upgraded fabric and better wing span for free riding, cruising or rotational freestyle moves.

Size: 3 / 4 / 4 / 5 / 6 m² | Wind Range: 22-35 / 15-27 / 15-27 / 12-25 / 10-19 KTN | Handles: 4 / 4 / 4 / 4 / 5 | Window: 2 / 2 / 2 / 2 / 2 | Pressure: 6 / 6 / 6 / 6 / 6 psi | Weight: 2.2 / 2.5 / 2.5 / 3.1 / 3.5 kg

[AZTRONSPORTS.COM](https://aztronsports.com)

AQUATONE - SLICE AIR WING 5.0/4.0

The brand-new SLICE Air Wing is here, and it is another ambitious design by the aquatone Team. Comes in two sizes - 4.0 and 5.0, the SLICE wings are made with lightweight construction and offer the easiest take-off and a very stable flying experience. We've added reinforced tapes on the segmented edges that require more power and canopy tension. Strategically placed grab handles also bring great power with ease of use, delivering a light feel when flying over the water.

Size: 5 / 4 m² | Wind Range: 12-25 / 15-27 KTN | Handles: 4 / 4 | Pressure: 6 / 6 psi | Weight: 2.5 / 2.2 kg

[AZTRONSPORTS.COM](https://aztronsports.com)

AZTRON - 4.0 / 5.0 WINDSURF SAIL

The 4.0 & 5.0 SAIL are the best companion for the AZTRON Inflatable Windsurf SUPs - SOLEIL 11'0" & SOLEIL XTREME 12'0".

The 4.0 & 5.0 SAIL are the best companion for the AZTRON Inflatable Windsurf SUPs - SOLEIL 11'0" & SOLEIL XTREME 12'0".

[AZTRONSPORTS.COM](https://aztronsports.com)

SIC - RAPTOR WING 4.0

The SIC Raptor Wing has been designed and rigorously tested by the team on Maui and Europe. The wing's leading edge utilizes an ultra-rigid, non-stretch, Dacron. Wich improves airflow, flight stability, and prevents seam bulging on the leading edge. Expect snappy turns, explosive lift, and smooth sailing upwind.

[SICMAUI.COM](https://sicmaui.com)

TAHE - ALIZÉ WING 4.0

Just like the warm, steady winds that blow in the tropics, the Alizé Wing is light and stable. Guaranteed take-off! Easy to control, its compact design allows you to enjoy your ride without touching the water. Its rigidity makes sailing simple and reduces the risk of flapping. Available in 5 sizes..

SAFETY ITEMS

EQUIPMENT TO MAKE PADDLING AS SAFE AS POSSIBLE.

PALM EQUIPMENT - ARC THROWLINE

A compact, speedy low-profile throwline with 8 mm rope and quick clip attachment.

Length: 12.5 m | Color: Ocean + Lime

[PALMEQUIPMENTEUROPE.COM](https://palmequipmenteurope.com)

UPDATED

LEVEL SIX - COMPACT QUICKTHROW

The Compact Quickthrow is a small throw bag designed for quick deployment in the case of an emergency. The Compact Quick Throw features tougher 16 M 1/4" dynamic rope with a 24% stretch threshold and boasts a 300KG breaking strength. The mesh panels allow quick draining and drying, and the gusseted opening system makes re-packing your throw bag quick and easy.

Length: 16 m/52.4' | Material: 5/16" (7.9mm) dynamic polypropylene floating rope 24% elongation 3.2 kN (705 lbs) breaking strength

[LEVELSIX.COM](https://levelsix.com)

LEVEL SIX - QUICKTHROW PRO

The Quickthrow Pro is a regulation throw bag designed for quick deployment in the case of an emergency. The Quickthrow Pro features a static Dyneema rope with a glow-in-the-dark polypropylene sheath. This 3/8" 20 M rope features an 11% stretch threshold and boasts a 1700KG breaking strength. The mesh panels allow quick draining and drying, and the gusseted opening system makes re-packing your throw bag quick and easy. The Quickthrow Pro is an excellent tool for river rescue scenarios like Z-drops and boat retrievals where a strong rope is needed, in any rescue scenario.

Length: 20 m/65' | Material: 3/8" static Dyneema core with a polypropylene sheath 14% elongation 16.7 kN (3745 lbs) breaking strength

[LEVELSIX.COM](https://levelsix.com)

PALM EQUIPMENT - QUICK SUP LEASH

An elasticated 3 metre SUP leash with a breakaway safety system. Mounting your leash to a quick release waistbelt is important around currents and moving water, in estuaries, harbours and rivers. Being able to reliably disconnect from your leash can save you from becoming entangled. This leash adds a failsafe to your ability to detach from your leash under load. By setting the amount of velcro in contact at both ends of the leash you can choose the strain that is required for the leash and SUP to break away from you. With the velcro fully attached the leash will break-away at 0.5 kN. Compatible with the Quick SUP belt, Quick Rescue belt and the Quick Pro belt.

Size: One size, Colour: Flame

[PALMEQUIPMENTEUROPE.COM](https://palmequipmenteurope.com)

PALM EQUIPMENT - QUICK SUP BELT

A quick-release belt for attaching a SUP leash, that's comfortable to wear all day and adaptable. The dedicated attachment loop neatly connects a Quick SUP leash and the belt can also be used with conventional ankle leashes. MOLLE webbing lets you customise your waistbelt with pouches and accessories, or keep the belt simple and low profile. Palm sponsored research into safety harnesses found quick release webbing tethers set at 3 cm length guarantee a correct release. Our clean tail safety release system separates the quick release and the waist adjustment buckle, so that the quick release tail is always the right length and the belt can be easily adjusted for large or small people with the spare webbing neatly coiled away.

Size: One size | Color: Jet grey

[PALMEQUIPMENTEUROPE.COM](https://palmequipmenteurope.com)

NRS - SLIQ TWIST LOCK CARABINER

The NRS Sliq Twist Lock Carabiner offers auto-locking security and single-hand operation. This multi-purpose workhorse strikes the ultimate balance of strength and durability in a lightweight package. Features hot-forged aluminum alloy construction for reliable safety without the heft; anodized finish provides years of lasting performance. Easy-to-hold asymmetrical D shape functions like a classic D-shape without the weight. Large gate opening for easily clipping in or attaching to gear. Twist lock disengages with a quick twist to open.

Size: 98 mm L x 60 mm W | Gate opening: 18 mm | Weight: 55 g | Strength (closed): 25 kN = 2550 kg | Strength (open): 9 kN = 918 kg | Material: Anodized aluminum alloy AL 7075 . Stainless rivers and wires | Colors: Black . Bright/Blue . Red/Silver | Certifications: CE EN362 . EN12275

KNIVES

RIVERS AND FISHING SPECIFIC SFATEY KNIVES OF ALL SHAPES AND SIZES.

NRS - CO-PILOT KNIFE

The Pilot Knife now has a little brother - the NRS Co-Pilot. An excellent knife for freshwater boating and rescue with smooth and serrated cutting edges, blunt safety tip, bottle opener, etc. The compact design fits on your PFD; The sheath clip attaches firmly to a PFD lash tab. Our unique sheath firmly locks the knife in place and only lets it go when you squeeze both sides of the release.

Length: 14.6 cm | Blade length: 5.7 cm | Weight: 130 g | Material: 420 HC stainless steel . Glass-reinforced polypropylene with TPR over mold | Colors: Yellow . Green . Black . Purple

[NRS.COM](https://www.nrs.com)

NRS - VOSS KNIFE

Named for the cascading rivers of Voss, Norway, our Voss combines the convenience of a folding knife with the functionality of a full-size rigid blade. It deploys one-handed and securely locks open; just flick your wrist, and the NRS Voss Knife transforms from its easy-to-carry folded position into a rescue-ready lock-blade knife. Smooth and serrated blade edges for efficient cutting of different materials, and a blunt safety tip doubles as a flat screwdriver. The contoured handle fits comfortably into your hand and keeps fingers away from the blade. Securely stash in a pocket or your PFD using the spring-steel clip.

Length: 17 cm | Blade length: 7 cm | Weight: 85 g | Material: 420 HC stainless steel . Glass-reinforced polypropylene with TPR over mold

[NRS.COM](https://www.nrs.com)

NRS - TITANIUM PILOT KNIFE

The NRS Titanium Pilot Knife features the same time-tested, professional-trusted design of the original Pilot Knife in corrosion-resistant titanium for use in salt water.

Length: 19 cm/7.38" | Material: Titanium Alloy

LIGHTS

TO SEE OR TO BE SEEN IN LOW LIGHT CONDITIONS— ON AND OFF THE WATER.

KAYALU - KAYALITE

The Kayalite is a rugged, bright white, dual-LED light, secured to a kayak deck using Kayalu's patented "Secure-Attach" mounting system, more durable and reliable than suction cups and fixed pole mounts. Virtually loss-proof and indestructible, the Kayalite is capable of flexing during a self-rescue; surviving from a direct impact by a paddle or branch; and recovering from a capsized or roll in shallow surf. The Kayalite is buoyant and waterproof, depth rated (IPX8) to 1,000 feet (300 m) below sea level. 3 AA alkaline batteries (included) provide 100+ hours of service. Made in USA of premium grade materials including 1/8" (3 mm) wall ABS and stainless steel hardware.

KAYALU.COM

KAYALU - KAYALITE XT

The Kayalite XT is a rugged, bright white, dual-LED light, attaching to a kayak, sit-on-top, canoe or stand-up paddleboard using Kayalu's patented "Secure-Attach" mounting system, more reliable than fixed pole mounts. The Kayalite XT is user-assembled to a height of 21" (53 cm) or 28" (71 cm). The Kayalite XT is waterproof, depth rated (IPX8) to 1,000 feet (300 m) below sea level. 3 AA alkaline batteries (included) provide 100+ hours of service. Made in USA of premium grade materials including 1/8" (3 mm) wall ABS and stainless steel hardware.

KAYALU.COM

KAYALU - KAYALITE-SUP

The Kayalite-SUP is a rugged, bright white, dual-LED light, attached to a stand-up paddleboard using Kayalu's patented "Secure-Attach" mounting system, more durable and reliable than suction cups and fixed pole mounts. The Kayalite-SUP can be secured to a D-ring, FCS plug, eyelet or other improvised point of attachment. The Kayalite-SUP is buoyant and waterproof, depth rated (IPX8) to 1,000 feet (300 m) below sea level. 3 AA alkaline batteries (included) provide 100+ hours of service. Made in USA of premium grade materials including 1/8" (3 mm) wall ABS and stainless steel hardware.

TRANSPORT

ACCESSORIES TO EASILY TRANSPORT YOUR GEAR OR KAYAK TO THE RIVER, SEA OR OCEAN.

NRS - YAK YAK BOAT CART

Let the NRS Yak Yak haul your boat to the water. This little powerhouse saves your back with sand-conquering tires, element-resistant materials, and weighing in 30% lighter than other boat carts. Rubber wraps around the heavy-duty plastic wheel for a smooth ride on hard surfaces. The kickstand holds the cart steady while loading, then flips up out of the way when you're moving. The 8 cm wide rim on the 23 cm diameter wheel gives good support on soft surfaces. The bearing-less, smooth-rolling wheels are easily removed, allowing the compact Yak Yak to slip into most kayak hatches. Comes with two 6' NRS Loop Straps with Buckle Bumper.

Size (collapsed): 58 cm L x 25 cm W x 9 cm H | Weight: 2 kg/4.4 lb | Load capacity: 68 kg/149.6 lb | Material: Anodized aluminum

[NRS.COM](https://nrs.com)

RIBER - PARTICLE

The Riber Particle Sit on Top Kayak Trolley has a sleek design to ensure maximum usage with minimum storage. Its robust, puncture-proof, rubberised wheels make for a smooth ride and easy manoeuvrability. The compact box size ensures the Particle Trolley is easy to ship and store.

[RIBERPRODUCTS.COM](https://riberproducts.com)

NRS - BUCKLE BUMPER STRAPS

Protect your boat, truck, trailer or ATV while securing loads with the NRS Buckle Bumper Strap. The removable rubber guard adds bounce to the buckle to prevent unhappy accidents without interfering with its operation. Beneath the bumper is the same burly NRS cam buckle that has set the standard for strength and reliability since 1978. All sizes are sold in pairs.

Sizes: 9' pair . 12' pair . 15' pair . 20' pair Maximum breaking strength: 680 kg/1496 lb | Working load limit: 227 kg/499.4 lb | Material: Polyurethane | Colors: Iconic Blue . Stealth Black

CARRY FREEDOM - THE Y

The original Y-Frame trailer is one of the biggest selling load trailers in the world. You have used it to haul your supermarket goods, for your trip across Africa and to go kayaking with your friends at the weekend. The Y-Frame did it all. Now it's time for a re-vamp. Without changing the original idea of a multifunctional load-platform, we have added compatibility to interface with a lot more options, like flag and light holders, surfboard carriers and give you better tie-down options as well. The Y exists in 3 different sizes, for all needs!

Sizes: Small (580 x 380 mm) . Large (700 x 500 mm) . X-Large (900 x 600 mm) | Wheels: 20" | Features: Lollipop Hitch . Light / Flag Holder . High-quality IGUS Bearings | Weight: Small 7.9 kg - Large 10.1 kg . X-Large 12.9 kg

[CARRYFREEDOM.COM](https://carryfreedom.com)

CARRY FREEDOM - THE LEAF

The LEAF is a folding trailer that has been designed for modern city mobility. The trip to the supermarket or the garden centre is easy with this flexible trailer. A folding trailer for shopping, travelling and city life, ideal for people living in apartments. The LEAF quickly folds flat for compact storage and can carry a week's shopping. Large wheels make going up and down stairs easy. The trailer is compact and manoeuvrable for use in crowded markets and streets.

Size: 595 x 422 x 288 mm | Wheels: 16" | Carrying Load: 45 kg | Weight: 10.4 kg | Features: Lollipop Elastomer Hitch . 1 Hitch Bracket for Seat Post

[CARRYFREEDOM.COM](https://carryfreedom.com)

PALM EQUIPMENT - ROOF RACK PADS

A pair of roof rack pads to protect and secure your boats and boards on your vehicle. They fit a wide range of bar shapes. Made from tough ballistic fabric with wrap around securing straps. Available in 50 cm and 80 cm lengths.

Size: 50 cm . 80 cm | Colour: Jet grey

www.SPADEKAYAKS.com

FULL HOUSE

Half a decade after we entered the game, we're happy and proud to show our hand. Choose your game-changer on www.spadekayaks.com

FULL HOUSE GETTING FULLER
NEW FOR 2023: Starfire & Barracuda

BLACK JACK: perfectly bridges the gap between a river runner and a creeker.

ROYAL FLUSH: fast and ultra-dynamic characteristics that are not afraid of steeper runs.

QUEEN: bringing light paddlers and youngsters the performance of the Jack & Flush.

JOKER: agile and responsive river runner with a little play thrown in.

BLISS: a downriver freeride machine. Splat, surf, squirt, repeat!

AQUAGLIDE - PRESS-FIT FINS

The Press-Fit Fins have a Glass Flex Construction. They are lightweight, rigid, and durable.

Features: Press - Fit Attachment . Removable Stoppers

AQUAGLIDE.COM

AZTRON - RACE FIN 10.0"

Pure, speed and tracking, introducing the 10.0" Air Race Fin. Thanks to the streamlined and progressive outline, it helps riders maintain drive and hold through a turn. This versatile fin is made of durable reinforced nylon which gives it excellent stability and tracking. It will be your ideal choice for use in the race, flat water and even open ocean.

Depth: 25.5 cm/10" | Base: 31 cm/12.2" | Set Up: US Fin/Air SUP (Standard for METEOR & METEORLITE) | Material: Reinforced Nylon

AZTRONSPORTS.COM

AZTRON - RACE PRO GLASS FIN 8.3"

The 8.3" Fiberglass Race Fin is equipped for the Race SUP and built with a US fin base. It is also built with our fan-favourite outlook - Astronaut Graphic. The fiberglass material offers lightweight and better tracking performance.

Depth: 21 cm/8.3" | Base: 16 cm/6.3" | Set Up: US Fin/Composite SUP | Material: Fiberglass Honeycomb/Astronaut Graphic

AZTRONSPORTS.COM

VENTURE CANOES - CANOE SKEG

When we introduced skegs to kayak designs beyond the sea kayak realm, we did so to help ease the learning curve for those developing their forwards paddling and trying to go in a straight line; a skeg in this context makes even more sense on a canoe. A skeg for a canoe is also relevant in the same ways as it is for a sea kayak (i.e. to counteract lee cocking or weathercocking), and thanks to the fact that most canoes can be paddled facing in either direction, in an even more versatile manner.

VENTUREKAYAKS.COM

OUTDOOR MASTER - SHARK II

The Outdoor Master Shark II is one of the fastest electric pumps for stand up paddle boards. The pump uses a patented cooling system, which makes inflating multiple boards an easy job! The pump comes with multiple nozzles for complete adaptability.

Size: 31x26,5x18 cm | Weight 1.57kg | Pressure Range: 20 psi | Max Energy Consumption: 10a, 120w (12volt)

MOVEMENTFORSPORTS.COM

OUTDOOR MASTER - WHALE

Like the Outdoor Master Shark II, this pump has dual stage motors, thanks to the dual motors you can inflate almost every inflatable product within no-time! Thanks to the patented cooling system you don't have to worry about overheating while pumping. The big advantage is that the outdoor master whale can go anywhere and is completely wireless!

Size: 40,5x28,5x18,5 cm | Weight 2.68kg | Pressure Range: 16 psi | Max Energy Consumption: 10a, 120w (12volt)

MOVEMENTFORSPORTS.COM

SCOPREGA - GE 22 CAPRI

The GE 22 CAPRI is the result of long research that aimed to create an efficient and highly performing inflator for SUP boards. A further and fundamental feature for those who want to enjoy the best of an outdoor experience, namely: silence. Thanks to the completely innovative inflation system, the noise of this inflator has been reduced to less than 75 dB. It's an extraordinary result for an inflator that still reaches 1250 mbar with a capacity of 170l/min. The GE 22 CAPRI is supplied with a Lithium battery able to inflate 3 SUP boards of 265 liters at 1250 mbar, with one charge. Average inflation time: 7 minutes

Size: 18 x 12 x 38 cm | Weight: 4 kg | Colors: BLACK, or Scoprega Red 2 | Max. Pressure: 1250 mbar | Noise level: <75 dB

SCOPREGA.IT

SCUBAJET - SCUBAJET PRO ALL-IN-ONE KIT

The SCUBAJET PRO All-in-One kit allows you to explore every Playground on the planet: Swimming, Snorkeling, Diving, SUP, Foil, Kayak, Canoe, you name it! No technical skills are needed at any point and the innovative adapter system can be switched easily within seconds. The 1,000 W jet engine will help you to reach 11 km/h (7mph) in the water. The kit also includes airline-compliant SMART BATTERIES™ (200 Wh) that provide you with up to 2 hours of battery life..

Weight: 3.2 kg/7.1 lb | Maximum Thrust 15 kg/33.1 lb | Performance: 1000 W | Buoyancy: 1 kg/2.2 lb | Length: 42 cm

SCUBAJET.COM

SCUBAJET - SCUBAJET PRO OVERWATER KIT

Let it take you there on its own. Or let it assist you. Or leave it off and paddle hard and far, knowing you can always get back. The purpose of SCUBAJET is to help people go beyond their limits. The jet engine has a power of 1000 W that you can easily control with the RC – Remote Controller™. 200Wh of power packaged in airline-compliant SMART BATTERIES (yes, you can take your SCUBAJET PRO as a carry-on) provide you with up to 2 hours of battery life.

Weight: 3.2 kg/7.1 lb | Maximum Thrust 15 kg/33.1 lb | Performance: 1000 W | Buoyancy: 1 kg/2.2 lb | Length: 42 cm | Speed Overwater: up to 7mph/11 kmh | Battery Type: Lithium Ion | Battery Capacity: 2x 100Wh = 200Wh (airline-compliant and stackable) B

KAJAK SPORT - FOOTREST AND STEERING SYSTEM 2

The new Footrest and Steering System 2 is a modern and stylish footrest system. It is very comfortable with or without shoes. A well-designed rod allows easy adjustment by hand even while seated. The rail is optimized to have a long adjustment margin. The rope line is straight and easy to install and remove if necessary. The footrest system is made of premium materials for light yet durable construction.

n/a

KAJAKSPORT.FI

SCOPREGA - VA NX

The VA NX is smaller than other inflation valves currently available on the market. The valve body can be replaced regardless of the inflatable to which it is applied. It will be available in various colors, and it will also be possible to customize the logo on the cap. Together with the standard version it will also be possible to order the version with mesh, VA NX-M. Furthermore, the valve nut can be ring-type or it can be welded to the fabric of the inflatable.

Size: 69 x 42 mm | Fabric Hole Diameter: 43 mm | Fabric Thickness: 0.5 mm – 3.5 mm | Nominal flow: 2000 l/min | Reference Standard: ISO no. 15738_2019

SCOPREGA.IT

PALM EQUIPMENT - DELUXE BACKREST

A high back deluxe sit-on-top backrest made from thermoformed foam with a built in contoured seat pad for comfort and a reinforced back section. It snaps into the D-ring attachment points on the deck of your sit-on-top kayak with corrosion resistant steel clips, mounted at four points for stability. The seat angle can be adjusted by the webbing straps.

Size: One size

PALMEQUIPMENTEUROPE.COM

WATERSPORT CONCEPT - INFLATABLE KAYAK POLO GOAL

Inflatable goals are ideal to offer kayak polo during training or events. Its spaced structure allows the goalkeeper to slip easily under the goal. 4 Sizes are available to best fit your needs. Its PVC construction and reinforced double welds give it excellent strength and durability over time. It is lightweight and inflatable in less than 5 min. The handles allow easy carrying, and its 7 stainless steel rings offer numerous anchor points and balanced. Its net is held by robust rings.

Goal Size: 150 x 100 cm
